## Usage

A template standardizing the portal templates and for other purposes.

## Syntax

Use `Template:Box-header`, in exact capitalization, and never `Template:Box-Header`. The template is not a stand-alone template and so once the box header is typed or pasted the template [Box-footer](#) must immediately follow it.

This example assumes that you have a separate page containing the content, and transclude it onto the page.

```
{{Template:Box-header
| title=
| editpage= <!-- This data must be the same -->
| titleforeground=
| titlebackground=
| background=
| viewpage= <!-- This data must be the same -->
}}

{{ <!-- This data must be the same --> }}

{{Box-footer | text }}
```

This example assumes that the content is entered between the header and footer. Notice that `viewpage` is not in there. It will not work because it links to the page you are on, and therefore Foresight wiki does not link it.

```
{{Template:Box-header
| title=
| editpage= <!-- This field must be the same as the name of the page it is on. -->
| titleforeground=
| titlebackground=
| background=
}}

Box Content

{{Box-footer | text }}
```

## Sample

```
{{Template:Box-header
| title= Foresight Wiki
| editpage= Template:Box-header/sample

{{{title}}}
```

## Template:Box-header

```
| titleforeground= white
| titlebackground= red
| background= white
}}
```

```
{{Template:Box-header/sample}}
```

```
{{Box-footer| [[FORwiki:Bucharest Dialogues]] }}
```
