   Template documentation
This documentation transcluded from Template:Idea/doc([edit](#) | [history](#))
Idea template is used on pages that contains new ideas exposed.

Usage

```
{{Idea|shortcut}}
```

The only parameter is optional. If supplied, it displays as a link to the appropriate shortcut page for the proposal. (Note that this is not automatic; MediaWiki cannot determine the shortcut from the page itself. You need to discover or create the shortcut yourself.)

Example

```
{{Idea}}
```

produces
