

## Template:Smaller

{{{1}}}

[\[edit\]](#) [\[purge\]](#)  [Template documentation](#)  
This documentation transcluded from [Template:Smaller/doc](#)([edit](#) | [history](#))  
Template to aid switching the font-size used for a text string.

### Syntax

`{{resize|N|text}}` or `{{resize|text}}`  
*N* specifies a size, such as "90%", "1.2em", etc. For the default case (the second above), *N* is set to "90%".

### Examples

<code>{{resize 1.2em This text is 0.2em larger than normal}}</code>	This text is 0.2em larger than normal
<code>{{resize 80% This text is 80% normal size}}</code>	This text is 80% normal size
<code>{{resize This text defaults to 90% normal size}}</code>	This text defaults to 90% normal size

## Alternate

`{{smaller|Text}}`

= `{{resize|Text}}`  
(i.e. *Text* will appear at 90% normal size.)
